

A SUPPOSED SUICIDE.

Heber Man's Body Found in His Room Here.

TOOK A DOSE OF LAUDANUM

SOME THINK IT WAS USED AS A NARCOTIC.

No Reason Why William J. Homer Should Have Taken His Life—He Was Formerly Employed by Hon. Joseph Hatch—Will Not Hold an Inquest.

William J. Homer of Heber was found dead in a room in the Hooper-Edridge block on Main street about 7 o'clock yesterday morning under circumstances that pointed to suicide with laudanum.

In the morning when the janitor made a tour of the block he encountered the lifeless body of a man in a room on the second floor of the building. After recovering from the shock, he notified the coroner, and the body was shortly afterwards removed to the morgue where the man's identity was discovered. A search of the room where the body was found resulted in the finding of an empty two-ounce bottle which had contained laudanum. There were no other evidences to indicate that the man had died by his own hand.

Mr. Homer was between 45 and 50 years old and has a family living at Heber. He has been a book-keeper for many years past in the employ of Hon. Joseph Hatch of Heber, who speaks highly of the deceased who in many respects was an exemplary man. Mr. Hatch was seen at the Callen yesterday afternoon and expressed regret at the untimely end of his employee. He was reluctant to admit the thought that the man had committed suicide, saying that as he was happily situated with his family and well-supplied in a temporal sense he could not understand how his mind became so unbalanced as to permit such a rash act.

A further investigation revealed that Mr. Homer had been in the city for several days. His conduct has not been of the best, as he has been drinking heavily. It is believed by many, and even Coroner Offenbach is inclined to share the theory, that the man took laudanum as a narcotic to gain sleep. He had been about town during all hours of the day and night and to all appearances was in an unhappy condition. Whether the deadly drug was taken with suicidal intent or simply to alleviate pain is not known, and in all such instances the coroner is inclined to give the deceased the benefit of the doubt.

The dead man's family was at once notified of the sad occurrence, and the remains, which have been embalmed, will be shipped to his home for interment.

The wife of the deceased sent a telegram during the afternoon stating that someone would be sent here to convey the body home.

Coroner Offenbach decided last night that no inquest would be held.

Among Some of the Fairest Scenes

On this continent and in the tropics, malaria poisons the atmosphere with its pestilential breath, sowing the seeds of disease and death in every direction. It is in such localities that the preventive and remedial qualities of Hostetter's Stomach Bitters are most conspicuously shown. For every form of malaria it is a signally efficacious remedy, and conquers disorders of the stomach, liver and bowels, remedies inactivity of the kidneys, and counteracts the weakness and lack of stamina which invades disease by leveling the barriers which a vigorous operation of the digestive and secretory organs opposes to it. No defensive medicine in use has stronger commendations in professional quarters both for purity and remedial qualities.

THE REPUBLICAN BOLLERS.

A FREE SILVER MAN'S VIEW OF THEIR ACTION.

They Did the Popular Rather Than the Unpopular Thing, and Except as to Teller, There Was No Display of Courage.

To the Editor of The Herald:

A good deal of nonsensical and hurtful enthusiasm is being indulged in regarding the bolters from the recent Republican convention. It may be fair to except Mr. Teller from the criticism, because there is no evidence that he is working up the Teller boom for president on the Democratic presidential ticket. It might at once occur to thinking persons, as it certainly will later, that the bolting delegates did the popular rather than the unpopular thing and the evidence is the rewards that are now being bestowed upon them. As a matter of fact the courageous act was that of the delegates who refused to bolt, and the evidence is to be found in their treatment by the people that sent them as delegates. It is a safe prediction that Senators Cannon and Dubois are too consummate artists in working up dramatic effects to be found willingly doing an unpopular thing publicly.

But whether the bolters are courageous or not, they are traitors to the cause of silver. Finding the hopelessness of an appeal to reason among Republican delegates, they profess to great a love for silver that amidst copious weeps, they bolt the convention.

And straightway they raise a rump and declare that the Democrats—a party they dare not join—must nominate Mr. Teller, a Republican, for president, on a free silver, 16 to 1 platform. Since they contend that Mr. Teller would carry the Democratic states while no Democrat could carry the Republican free silver states, it argues a recognition by them of the fact that Democrats would vote their conviction even though the act conferred the presidency on a Republican, while Republicans generally, though favoring free silver, 16 to 1, would rather see that cause fail than that their votes should fill the office of chief magistrate of this nation with a Democrat.

Now, not one of these bolting Republicans has any idea that the Democratic convention will nominate Mr. Teller for president—not the remotest idea. Then why press him forward and endeavor to win a support for him against any Democrat, however devoted to the cause of bimetallicism? Because the bolters are without a party. They have repudiated Republicanism, they will not support a Democrat and their only hope to retain a popularity recently conferred by the act of bolting is to have a Republican lead the Democratic presidential ticket on which they can say: "See, we still love a Republican and are therefore loyal to the cause of bimetallicism and to Republicanism also."

If Mr. Teller, as must be the case, is not nominated by the Democrats, and if a Democrat who favors free coinage at the old ratio, is nominated, then they are renegades to their party and are compelled to support a Democrat or lose all they have gained by the St. Louis bolt.

To prevent such a fearful contingency to them they are pushing forward Mr. Teller, and by specious—if not ingenious—argument are endeavoring so to mould opinion locally that

Barnum said

"The American people like to be humbugged." The history of the tea business bears him out. You like to pay thirty or forty cents for ten or fifteen cent tea, doctored and weighted and painted so as to look like fifty-cent tea.

But is it so? Do you like to be humbugged? Would you, or would you not, buy a tea if you knew it to be pure?

You can try Schilling's Best without risk—the grocer will give you your money back if you don't like it.

Schilling's Best coffee, soda, baking powder, spices, and flavoring extracts are also good in their way—and money-backed.

A Schilling & Company San Francisco

The local Republican organization will refuse to stand shoulder to shoulder with Democrats, presuming the Democratic national convention nominates a man whose fidelity to bimetallicism is unquestioned.

These men are not for free silver—they are for themselves first, last and all the time. They show themselves to be traitors to the cause of bimetallicism and it is no unfair conclusion to draw from the arguments advanced by them that they hold the rank and file of the Republican party to have a little loyalty to the cause of silver as they themselves exhibit, since they declare western Republicans generally would not support a Democrat, even on a free silver ticket—otherwise there is left no point to their argument favoring the nomination of Senator Teller by the Democratic national convention.

These men are traitors to the cause—and traitors for the meanest of causes—for individual popularity.

Instead of being lifted aloft as worthy illustrations of devotion to conviction, they should be held up to public execration. Whatever merit their recent act may have possessed has been destroyed absolutely by the determination of activity displayed in prejudicing the minds of devoted followers of the cause of bimetallicism by discrediting in advance the action of the only party that now offers any rational hope of giving to our poverty-stricken nation a relief that can come through a just bimetallic system of finance alone.

The work will be done between July 15 and 31, and will be under the supervision of Clerk Moreton.

Treasurer Barnett made the following report for the month of June:

On hand June 1, \$39,154.48

Received from clerk, rent and fines, \$9.60

Return of warrants issued for purchase of bonds, which purchase failed of completion, \$10,000.00

\$49,254.08

Disbursements—

Paid clerk's warrants, \$24,421.26

Balance June 30, \$19,832.82

Referred to the committee on finance.

The finance committee reported that

It was unable to purchase the \$10,000 worth of school bonds of the board of education from E. H. Rollins & Son, as contemplated in the committee's report of April 2, and for which a warrant was drawn in favor of the Wells, Fargo & Co's. bank. It was ordered that the warrant be returned to Treasurer Barnett as a result of the failure to purchase.

The committee on finance reported a resolution authorizing the clerk to issue warrants as follows: Rent roll for the month of June, \$484; officers' salaries for June \$535; W. A. Cohen, \$55; George Forrester, \$70; janitors' pay roll, \$112.92; S. L. Scavenger Co., \$35; R. Tipton, cutting lawns, etc., \$41.19; total, \$2,343.02.

The resolution was adopted.

The clerk was instructed to have twenty-five blank books printed for the use of the enumerators in taking the school census.

On resolution offered by the committee on teachers and school work a leave of absence of two weeks each was granted the employees of the board during the summer, the periods of absence to be arranged with the approval of the president, so as to least retard the work.

Ex-Police Officer J. W. Miner made application for position as truant officer for the year 1896-7, and asked that the salary be fixed at \$100 per month, as it would be necessary to keep a private conveyance, the street cars being too uncertain. He gave a number of names, including that of Chief Pratt and ex-Chief Paul for references. The matter was referred to the committee on teachers and school work.

Fines amounting to \$2.20 reported collected as fines on high school books were ordered turned over to the treasurer.

Miss Cohn, clerk in Superintendent Millsap's office, was granted a leave of absence for two weeks.

Adjourned for two weeks.

SLUSH!

How Candidate McKinley Lives, Moves and Breathes.

CANTON, O., July 2.—Governor McKinley drove with his brother Abner to bid her good-bye. Mrs. Nancy Allison McKinley leaves this afternoon with Mrs. Abner McKinley on a special car via the Baltimore & Ohio railroad for Somerset, Penn., where Mr. and Mrs. Abner McKinley have a summer home. There was a constant stream of visitors to the McKinley home all the morning. The Christian endeavor delegates of the Ohio state convention assembled here predominated in numbers. Conspicuous among the out of town callers were State Chairman and National Committeeman Jamieson, of Chicago, and City Treasurer Koehner, of the same city, who were accompanied by Prosecutor George W. Selber, of Akron.

Hon. Burchard Hayes, the oldest son of ex-President Hayes, is resting easier today.

Mr. Hayes, who is a prominent lawyer of Toledo, came last night with his family and his sister, Miss Fannie Hayes, of Fremont, Ohio, from the old Hayes home at the latter place to make a call upon the Republican nominee. He was stricken very seriously within an attack of acute indigestion and his condition was considered very critical for several hours. He now hopes to be sufficiently recovered to leave the McKinley house for his home in Toledo in two or three days.
